

October 2017

Dear Valued Customer,

It is our goal to ensure that you receive timely updates about FUJIFILM SonoSite products.

After 6 years of exceptional performance in the hospital, office and field environments, we announce the retirement of the SonoSite Edge ultrasound system.

Launched in 2011, the Edge has been hugely successful in point-of-care markets, specifically Emergency Medicine and Critical Care. We have taken your experiences and feedback to develop the successor to Edge, the SonoSite Edge II. As the replacement product for the Edge, we know Edge II will continue to shape the way ultrasound is used in point-of-care medicine.

Service support for this system and associated transducers will be provided until July 31, 2024. If you have any service questions during this time, please contact your local Technical Support, or Fujifilm SonoSite Head Quarters at 877-657-8118 or ffss-service@fujifilm.com.

SonoSite's product family has expanded significantly over the years to include a wide range of powerful point-of-care ultrasound solutions enhancing quality of care, patient safety, cost reduction, efficiency, and patient satisfaction. SonoSite has a solution to fit every ultrasound need in any point-of-care clinical environment.

To find out more about FUJIFILM SonoSite products and/or End of Life information, please contact your local FUJIFILM SonoSite Representative or visit us at www.sonosite.com. If you have service questions, please contact Technical Support at ffss-service@fujifilm.com or 877-657-8118.

We sincerely thank you for your continued support and look forward to serving you in the years to come.

Sincerely,

FUJIFILM SonoSite, Inc.
